

Flintlastic® SA Cap Colors

Flintlastic® SA Cap Colors

Flintlastic SA Cap is available in a variety of “true-blend” colors to complement popular CertainTeed shingles.

A close-up image of a Flintlastic SA Cap shingle in the Weathered Wood color. The surface is a dense, granular mix of dark brown, black, and small flecks of green and red, creating a weathered, organic appearance.

Weathered Wood

A close-up image of a Flintlastic SA Cap shingle in the Burnt Sienna color. The surface is a dense, granular mix of dark brown, black, and small flecks of orange, red, and yellow, creating a rich, earthy appearance.

Burnt Sienna

A close-up image of a Flintlastic SA Cap shingle in the Colonial Slate color. The surface is a dense, granular mix of dark grey, black, and small flecks of white and light grey, creating a classic slate appearance.

Colonial Slate

A close-up image of a Flintlastic SA Cap shingle in the Moiré Black color. The surface is a dense, granular mix of dark grey, black, and small flecks of white and light grey, creating a subtle, textured appearance.

Moiré Black

A close-up image of a Flintlastic SA Cap shingle in the White color. The surface is a dense, granular mix of light grey, white, and small flecks of dark grey and black, creating a clean, bright appearance.

White
